

HCVID v2.0 — Read Me First

Getting Started

This package contains the Healthcare Contract Variance Intelligence Dataset v2.0. Begin with the Sample tier (500 records) to validate field mapping, then progress to Developer (25,000), Professional (250,000), or Enterprise/OEM (1,000,000) tiers based on your use case.

Package Contents

Dataset.csv (full dataset), Dataset.parquet (columnar format), Sample_Dataset.csv (500 rows), Data_Dictionary.xlsx, Source_Lineage.xlsx, 8 Registries, 13 PDFs, Metadata.json, Schema.json

Primary Use Cases

Contract optimization, revenue leakage recovery, payment variance analysis, audit preparation, financial risk management, predictive contract modeling.
