

# Provider Credentialing Intelligence Dataset

## PCID v2.0 — Product Overview

### Executive Summary

The Provider Credentialing Intelligence Dataset (PCID) v2.0 delivers 1,000,000 provider credentialing records across 116 intelligence fields spanning 12 domains. This rebuild adds enrollment intelligence, recredentialing intelligence, sanction intelligence, network participation intelligence, cycle-time intelligence, and predictive credentialing intelligence — achieving Platinum certification at 97.0/100.

### Dataset Specifications

<b>Dataset</b>	Provider Credentialing Intelligence Dataset
<b>Acronym</b>	PCID v2.0
<b>Classification</b>	Class C — Curated Intelligence Dataset
<b>Certification</b>	Platinum 97.0/100
<b>Records</b>	1,000,000
<b>Fields</b>	116
<b>Domains</b>	12
<b>Coverage</b>	All 50 U.S. States
<b>Build Date</b>	June 03, 2026

### Intelligence Domains

Domain	Key Fields
1. Provider Intelligence	NPI, provider type, specialty, taxonomy, gender, state, practice location
2. Licensing Intelligence	License number/type/state/status, issue/expiration dates, disciplinary flag, DEA registration
3. Enrollment Intelligence	PECOS flag, Medicare/Medicaid enrollment status, revalidation date, enrollment risk score
4. Credentialing Intelligence	Credentialing status, completion flag, risk score, missing/expired credential flags, verification
5. Recredentialing Intelligence	Recredentialing due date, cycle months, last recredentialing date, status, cycle time, risk flag
6. Certification Intelligence	Board certification flag/type, certification status/expiration, MOC compliance
7. Education Intelligence	Medical school, graduation year, residency/fellowship flags, education verified, ECFMG
8. Sanctions Intelligence	OIG/SAM exclusion flags, sanction type, enforcement action, malpractice flag/count
9. Network Intelligence	Network ready flag, contracting status, network adequacy, recruitment priority, panel status
10. Compliance Intelligence	Compliance/audit risk scores, monitoring flag, corrective action flag, review status
11. Cycle-Time Intelligence	Initial credentialing days, recredentialing days, enrollment processing days, touch/rework count
